

Welcome to Math 8 with Mr. Klaassen

Please tell me a little about yourself.

Name_____Block_____

What elementary school did you go to?

What was your favorite subject last year? Why?

What are your goals for Math 8 or grade 8 in general?

What strategies are you going to use to accomplish those goals?

What can I do to help you accomplish your goals?

If you have trouble with your homework, what do you do? (Do you call up a friend, see the teacher outside of class time, ask your parents/guardians, leave it for later, read the textbook, look it up on the web, or some other strategy?)

What are your after school activities?

Something about you: (pick a favorite book, movie, show or game and why you like it)

Homework: find a math video and e-mail me the link at aklaassen@vsb.bc.ca
